

What is Joomla!

Joomla! is an award-winning Content Management System (CMS) that will help you build websites and other powerful online applications. Best of all, Joomla! is an open source solution that is freely available to everybody.

Joomla! is used all over the world to power everything from simple, personal homepages to complex corporate web applications. It's not complicated. Joomla! has been developed for the masses. It's licensed under the GNU/GPL license, easy to install and administer and reliable. Joomla! doesn't even require the user or administrator of the system to know HTML to operate it once it's up and running.

Joomla! features:

- Uses the best IT technologies available :mysql for the DB system, php for the programming logic,xml, css and more.
- Completely database driven site engines
- News, products or services sections fully editable and manageable
- Topics sections can be added to by contributing authors
- Fully customisable layouts including left, center and right menu boxes
- Browser upload of images to your own library for use anywhere in the site
- Dynamic Forum/Poll/Voting booth for on-the-spot results
- Runs on Linux, FreeBSD, MacOSX server, Solaris , AIX,Windows

Extensive Administration:

- Change order of objects including news, FAQs, articles etc.
- Random Newsflash generator
- Remote author submission module for News, Articles, FAQs and Links
- Object hierarchy - as many sections, departments, divisions and pages as you want
- Image library - store all your PNGs, PDFs, DOCs, XLSs, GIFs and JPEGs online for easy use
- Automatic Path-Finder. Place a picture and let Joomla! fix the link
- News feed manager. Choose from over 360 news feeds from around the world
- Archive manager. Put your old articles into cold storage rather than throw them out
- Email-a-friend and Print-format for every story and article
- In-line Text editor similar to Word Pad
- User editable look and feel
- Polls/Surveys - Now put a different one on each page
- Custom Page Modules. Download custom page modules to spice up your site

- Template Manager. Download templates and implement them in seconds
- Layout preview. See how it looks before going live
- Banner manager. Make money out of your site
